Summary:

The minutes of the previous meetings were approved as written posted on our website https://conservativesrc.com/

✨ Summary

The meeting covered financial updates, member engagement, and in-depth discussions on alternative medical treatments, particularly DMSO and chlorine dioxide. Key decisions included approving the treasurer's report, planning fundraising activities, and emphasizing the need for scientific validation of alternative therapies. Multiple testimonials and challenges regarding regulatory acceptance were discussed, along with future research plans. The meeting focused on discussing alternative treatments for cancer and other health issues, emphasizing the importance of functional and homeopathic medicine. Key decisions included sharing resources and protocols for managing health conditions, particularly cancer prevention and treatment.

📋 Outline

1. Financial Update • 00:02:23

- The current bank balance is $556.01, which is a decrease from last year's total of $1,500.
- There is a need to increase funds through upcoming fundraising activities.

- New members are being welcomed to join and contribute.

2. Member Engagement and Recognition • 00:03:11

- Ms. Lauren Kell was recognized as a recipient of a $250 prize for her participation in a contest.
- The meeting encourages participation and acknowledges contributions from members.

3. Medical Treatments Discussion • 00:06:40

- A speaker, Steve Terrell, shared personal experiences with cancer treatment, including conventional and alternative therapies and additional information from his web site floridafreedomfighters.com.
- The speaker emphasized the importance of DMSO and other supplements in their treatment protocol.
- Resources and websites were provided for further information on alternative medical treatments.

4. DMSO and Alternative Therapies • 00:12:18

- DMSO was discussed as a potential treatment for various conditions, with anecdotal evidence of its effectiveness.
- The speaker highlighted the controversy surrounding DMSO and the lack of FDA approval for general use.
- Scientific studies and personal testimonies were shared to support the discussion on DMSO's benefits and risks.

5. Patient Experiences with DMSO • 00:27:49

- Sandy Shariff experienced severe pain for two years, which was unresponsive to conventional treatments.
- After receiving DMSO treatment in Portland, she reported significant improvement in her condition.
- Dr. Tachikura instructed her on the topical application of DMSO, which she has been using since November.

6. Challenges in Medical Acceptance • 00:31:11

- There is a lack of scientific evidence supporting DMSO's efficacy, leading to skepticism from the FDA and pharmaceutical companies.
- The financial model of drug companies discourages investment in treatments like DMSO, which cannot be patented.
- Testimonials alone are insufficient for regulatory approval, highlighting the need for scientific testing.

7. Chlorine Dioxide and Malaria Treatment • 00:39:00

- Chlorine dioxide has been used in various countries for malaria treatment, with claims of successful outcomes.
- The Red Cross allegedly conducted tests showing chlorine dioxide's effectiveness but later distanced themselves from the results.

- There is a belief that the pharmaceutical industry suppresses information about effective low-cost treatments like chlorine dioxide.

8. Future Research and Applications • 00:52:03

- Plans are in place to study the effects of purified water on malaria patients in collaboration with local health authorities.
- Initial tests showed promising results, with patients clearing malaria within 24 hours after treatment.
- The meeting emphasized the importance of documenting and sharing successful treatment stories to raise awareness.

📋 Outline

1. Alternative Cancer Treatments • 00:00:00

- A doctor suggested using chlorine dioxide and nebulizing BMSO as part of a treatment protocol for respiratory illnesses.
- The speaker shared personal experiences with cancer and emphasized the need to address cancer stem cells rather than just actively dividing cancer cells.
- Recommended substances for cancer prevention include green tea, methanazole, metformin, and vitamin A.
- The speaker provided a website for resources related to cancer treatment protocols.

2. Functional and Homeopathic Medicine • 00:08:02

- A participant discussed their mother's improvement with Parkinson's through functional medicine and homeopathic treatments.
- They highlighted the importance of finding qualified doctors who can prescribe vitamins and supplements.
- The participant mentioned the challenges of navigating the healthcare system while seeking alternative treatments.

3. Community Support and Resources • 00:11:50

- Participants shared information about downloadable resources and protocols available on Telegram for alternative treatments.
- A recommendation was made to start with Part A and Part B solutions from a specific company for those interested in alternative therapies.
- The discussion included personal stories of parents seeking alternative treatments for their children, emphasizing the need for community support.

Motion Treasury and Minutes Approved: Sherry Chapman, Diane Warner

Motion Adjourn: Stan Jandura, Donna Long
